What was the purpose of Trello?

- Accessible educational materials
- Collaborative and shared learning experiences
- Real-time information sharing
- Improving practical and simulation learning experiences
- 'Prospective & Retrospective' discussions

How was Trello set-up? (Aug 18 – 19)

How was Trello set-up? (Aug 19 onwards)

How has this improve Education & Training?

Best thing about Trello?

10 responses

very interesting and educative

bespoke and relevant for our department

A platform to share education, where junior staff can benefit from the experience of senior staff

Something for everyone, and developed by trainees

Common platform with people I know

Use of pictures and diagrams.

Regular update in guidelines and case discussions.

Having several resources in one place - external resources and local guidelines

Very good cases and concise guidelines/summaries.

Encourage learning

What are the issues?

How could Trello be improved?

8 responses

emphasising recent advances

embed it more into induction / weekly teaching so it becomes the go to place for our team

More critical appraisal of 'hot topic' papers in EM

Videos

More people contribute to posting and interacting (including myself!)

Complete set of up to date local guidelines

People (including myself) participating more. Answers to questions being asked posted at later time. Maybe anonymizing answers to encourage people to comment more and not being worried about giving a wrong answer.

More users, local information

What are the future plans?

Trello-related Activity	Events	Details
Practical skills	1 st Thames Valley EM Level 1 'Introductory' US Course	15 th October 2019 - RBH
Simulation	Paediatric Procedural Sedation	15 th November 2019 - RBH
Retrospective discussions	ED Journal Club	Last Friday of every month
Wellness & Wellbeing	ED Social Events	Last Friday of every month

- Video uploads
- Induction
- Forums
- Trust App
- MDT approach
- Regional extension
